Arrest, Drazen Zivkovic i Gojko Raicevic, Podgorica, 13.01.2020.

13 January 2020 journalists Drazen Zivkovic and Gojko Raicevic were detained because they published the explosion at the official state-owned residential villa Gorica in Podgorica. Police later denied this, stating that there was no explosion, but some failure in the wiring. Montenegrin police and the prosecution claim that Raicevic and Zivkovic, who were released after the hearing, caused panic and disorder with that article. The portals on which they are editors (In4S and Borba) immediately conveyed the police denial of the controversial news.
